Nick –

We do not have records of dilution rates “set” on the dispensing devices used in facilities.

These devices are pervasive throughout the Industrial, Healthcare and Institutional industry for use in diluting environmental hygiene chemistry across a broad range of ratios. Dispensers are supplied with “tips” or dilution orifices that are color coded to provide a given dilution ratio. When end users install the dilution cabinets, they select the appropriate dilution tip based on the product, labeling and their intended use of that formulation.

Our response to Item 4 (attached) was simply our record of sales service calls where our representative did conduct monitoring services to determine dilution rate of the devices.

I hope that clarifies your question. If you would need anything further or like to discuss in person, please let me know.

Take care - Bill

Mr. Schalitz,

Thank you for your previous information submission to EPA. As a follow-up, does Spartan maintain records of dilution rates set on the disinfectant dispensers at this facility? This was part of #4 in our information request. If you have these records, could you please provide them to EPA at your earliest convenience?

Thank you,
Nick

Mr. Hurwit –

In response to your information request dated January 25, 2021, Spartan Chemical Company, Inc. is making the following submission.

Attached to this email is the executed Statement of Authority. I have outlined a total of 46 pages in our submission on the SOA. Our response to your request for labels (Item 2) is also attached and comprises a total of 9 pages. Our response to Items 1, 3 and 4 are the remainder of those 46 pages and include information concerning the identify of [Client's] customers, as well as information concerning quantities of product sold and pricing. We respectfully request a CBI portal for submission of this information and that U.S. EPA maintain the records as Confidential Business Information pursuant to 7 U.S.C. Section 136h and 136e(d), as well as any other applicable state or federal laws.

Spartan Chemical Company does not have records of training (Item 5) or copies of training materials (Item 6) to submit.

Please let me know at your earliest convenience how we can submit the CBI information. Take care and have a great weekend - Bill

William J. Schalitz

Subject: RE: EPA Region 10 Information Request

Hi Bill,

Good question. At this point, we are responding to more generalized complaints about disinfectant use and exposure, hence our investigation. If we come across information indicating a more specific exposure, we will pass along that information.

Thank you,
Nick
